

Veterans Elementary School Night Of Innovation

The GT Fair and Science Fair are coming together again to form Veterans Elementary School's Second Annual Night Of Innovation on **Thursday, May 2, 2019 from 6:30 to 8pm!**

All students in grades K–5 are invited to participate in the STEM Fair. Participation in the Night Of Innovation STEM Fair is entirely voluntary and **projects must be completed at home**. Handbooks with project guidelines and suggestions will be available on the VES PTA website or you can request a paper copy on this registration form.

STEM experiments must be performed at home. Due to safety issues, we can't use the cafeteria or the gym as a laboratory! The Night Of Innovation STEM Handbook contains information and forms to help the student organize his or her information on the experiment. Any photos, hand-drawn pictures, graphs, tables, etc. should be attached securely to the board. Project materials can be brought along with your display board as long as they fit on a child-size desk. Please do not bring any food, chemicals, animals or bugs if they are used in your project. All projects must be taken home when the fair is over.

Projects must be displayed on a self-standing board that can be no more than 48 inches tall and opens to no more than 36 inches. **Each participant MUST complete a registration form and it MUST be signed by a parent or guardian.** Students can register for an individual project or a group project. Groups may have a maximum of 4 participants and all participants listed must be VES students. Every participant must have their own registration form in order to receive credit for participation in the Fair. If siblings or children in different grades do a project together, separate grade-appropriate display boards are suggested (but not required), since student displays are arranged by grade at the Science Fair. Same-grade collaborations need only one board. You may use a board that you already have, that you make, or you may purchase a commercially made tri-fold board.

VES Night Of Innovation needs you! Can you volunteer to organize this event? Help put together the participant bags, register students, or create the registration confirmation packets? All of this is done in April.

If you have questions, please contact the Vivienne Miller PTA Evening Of Innovation Committee Co-Chair at vivienne@bowman.org.uk

The registration form is also available at: <https://goo.gl/forms/gxw5xekHwaOdZmre2>

Sincerely,
The Evening Of Innovation Committee

Veterans Elementary Night Of Innovation Registration Form

Due Friday March 22nd, 2019

You must register to participate and receive a participation bag

Student's Name (please print):

First

Last

Homeroom Teacher:

Grade:

What science question or engineering problem will you be investigating?

Is this a group project? Yes No

If yes, please list names and grades of students in your group

1.

2.

3.

How many display boards will your group have?

Yes! My child can participate in the Night Of Innovation.

Parent Signature:

Date:

Parent Name (printed)
